LIHEAP - What is it?
The Low Income Home Energy Assistance Program (LIHEAP) assists families with low-incomes heat and cool their homes. The program offers bill pay assistance to qualified households.

State LIHEAP Supplemental Fund: The LIHEAP Supplemental Fund was started in 1997 with the goal of providing additional funding to the Federal LIHEAP budget. Participating utilities assess a $.48 cent monthly surcharge from customers and deposit it in a state fund that is appropriated to the Department of Commerce and Economic Opportunity. This fund is essential in providing funds for the Percentage of Income Payment Plan (PIPP), Reconnection Assistance, and providing additional funds for the traditional LIHEAP program. Much of these funds provide assistance to the state’s most vulnerable citizens – seniors, the disabled, and families with young children.

LIHEAP Payments: The traditional LIHEAP payment is a one-time annual benefit made to the utility on behalf of the customer. Benefits are based on household income.

Reconnection Assistance: Customers who are disconnected from an energy source that is used to heat the home may receive additional assistance in order to restore heat. The customer must first make a “Good Faith (Effort) Payment” in order to receive the extra benefit.

Percentage of Income Payment Plan (PIPP): The PIPP is an alternative to the traditional payment. Customers pay a regular, monthly payment to their utility based on 6% of their income. LIHEAP makes a monthly payment to the utility to make up the difference. Customers must pay their portion each month to stay on the program.
